FRIDAY MORNING, MARCH 19.

WE alluded a few days since to the vote cast by Senator Boreman against the bill to strengthen the public credit. We have heard since of a little afterpiece that seems deserving of mention. The motion to emasculate the bill was made by Mr. Thurman, of Ohio; and as soon as Mr. Boreman had voted for it Mr. Thurman crossed the chamber and seizing the West Virginia Schator by both hands, shook them with great cordiality in a congratulatory way. THE INDIANS .- President Grant, it is announced, has written letters to certain Friends in Philadelphia, announcing his desire "of inaugurating some policy to protect the Indians in their just rights, and enforce integrity in the administration of their affairs, as well as to improve their general condition." A request is made for a list of names of members of the Society of Friends who can be endorsed as suitable persons for Indian Agents. The President says that he will encourage and protect any attempt which Friends shall make for the improvement, education and Christinnization of the people.

In view of the disturbed condition of affairs in Cuba and the imminent dans ger to the lives and property of American citizens resident there, Admiral is a candidate for Minister to Hayti, Porter, at the instance of the Secretary of the Navy, has ordered several of the vessels belonging to the Pacific Squadron to proceed immediately to re-enforce the West India Squadron. In addition to this, Admiral Porter has given orders to fit out at once two first-class iron-clads, to proceed to Key West, and hold themselves in rendiness for any orders that may come from the officer commanding the West India Squadron. The large frigates Lancas-ter and Sabine are also ordered to be got in readiness for sea service. The Gov-ernment is of the opinion that the time has arrived when prompt action should be taken to show the Spanish authorities in Cuba that the rights of American citizens there must be respected. When the vessels ordered there have arrived. there will be a sufficient force in Cuban waters to meet all emergencies. Just what the "emergencies" are expected to be does not appear.
